

A scatter plot showing the distribution of evidence sites and crop production areas. The x-axis represents Longitude (°) from -100 to 150, and the y-axis represents Latitude (°) from -10 to 60. The plot includes three data series: GeoNutrition: Ethiopia (wheat) in orange, GeoNutrition: Malawi (rice) in green, and FACE evidence site (crop) in blue. The orange and green clusters are located in East Africa, while the blue points are scattered across the continent, including a cluster in the north and a single point in the south.

Country	Fe / Zn / N observations (real FACE trials, cereals)
Germany	40
China	12
Australia	10
Japan	7
Denmark	4
USA	3
